
Add 2 items to the checklist?

Posted by g0t0pless - 2005/12/02 08:16

I would like to add 2 items to the checklist.

1 would be to have a page that must be agreed to before continuing, like a release form. The person cannot continue until they press "I agree" to the terms.

The other would be a "don't forget to bring..." checklist that the user could print out. This step would be optional of course.

Yes. go ahead and modify the mod_checklist.php :)

CommunityBuilder has a nice feature for this. Every user that signs up has to agree with the terms and conditions.

I just did this, but my item doesnt show in the menu. Yet I see it in the admin backend.

Has this process been updated since 2.5years ago :P
