
Roster CB Links to profile?

Posted by thedroop - 2007/11/18 15:06

Is there anyway to make the team rosters names linkable to there CB profile?

I read in a post to edit the events/html.php file line 484 or something

but what do you add? alter? :(

it would be very cool to add this feature!

dang, what a great plugin

I just wish it had more support :(

guess im not gonna use it meanwhile :(
