
Error creating teams

Posted by Fishguy - 2008/05/09 05:37

Hey everyone,

I have been having trouble creating teams for use with tournaments/events, etc.

Everytime I try to create a team, either from the front end or back end I get the following error:

<http://inspiringfreedom.ca/joomla/images/Ben/error.jpg>

Has anyone else had the same error and if so, can you help me fix it??

Thanks!

Ben
