
Dutch language-file

Posted by drweb - 2008/05/12 19:07

Here is the dutch language-file for the Seatmap component :

Greetz,
DrWeB.be B) <http://www.mylansite.org/images/fbfiles/files/seat.zip>

Thx for the work!!

Note, shouldnt the file be named dutch.php? I did this and joomla used it nicely.

Very small note in the comment in the file:

* english language file for com_mls_seatmap 0.1.0

should be:

* dutch language file for com_mls_seatmap 0.1.0
